

### Access to data

The French Agendas Project has collected a great number of times series of varying length on French political institutions and actors. Those datasets were built thanks to the generous support by the French Research Agency ANR (grant 'ANR-Gouv-055'), as well as a list of other sources that can be viewed [here](#) . Four consolidated datasets can now be downloaded from this page.

All datasets are in csv-format (sep: semicolon), easily readable by Excel and most standard statistical software packages.

All series have been subject to topic or issue coding, using the Agendas coding scheme, originally developed within the US [Policy Agendas](#) project, initiated in the 1990s by Frank Baumgartner and Bryan Jones. An uptodate version of the French Agendas Codebook can be downloaded here:

[Codebook France](#) 

All datasets can be freely downloaded, but remain the intellectual property of the members of the French Agendas Project. They have to be referenced adequately. For any further question, please contact the [French Agendas team](#) .

### The laws of the 5th Republic
